How tip411 Works

Text “**BCTIPS**” and your tip information to **tip411** (847411)

Remember tip411 is NOT an alternative to calling 911. In an emergency call 911 immediately.

Your tip is sent to a call center in St. Paul Minnesota where they remove all identifying information before law enforcement receives the tip so there's no way to identify the sender, making the program 100% anonymous. From there the tip is then sent to the appropriate Barron County law enforcement agency.

It's a two way street

tip411 allows the officer to respond to your tip through the call center if necessary. You will receive a response from the officer through the call center with an option to continue anonymously communicating if you would like. Simply text STOP if you choose to not continue communication with the officer.

You can start helping law enforcement and your community by using tip411 and encouraging your friends and neighbors to do so as well!

Do you know of a crime or suspicious activity that should be reported to law enforcement?
